

# pointfolio<sup>®</sup> plus point out your best

## EASY, AFFORDABLE, MADE-TO-MEASURE RECOGNITION

PointFolio<sup>®</sup> Plus is a point card recognition system that can be customized, quickly implemented, and can grow with your recognition needs. There are **no data loads or administration fees**.

### Custom Web Address

Because your company and recognition culture are unique, we'll setup a custom web address and message that conveys your organization's celebratory theme. Then, you'll immediately be able to recognize individuals using the cards, programs, behaviors and point values you create. As owner or administrator you'll have access to real-time tracking and reporting.

### Custom Cards and Message

It all starts with recognizing someone's achievements with a custom card and personal message. It could be a mini certificate or greeting card that's hand-written, hand-delivered or mailed. If you prefer, an efficient and timely e-card option is available. Whichever you choose there are **no design or printing charges**.

### Card Options:

- Mini Certificates and Greeting Cards: convenient, custom **printed and delivered within a week**
- E-cards: easy, timely custom cards **delivered immediately electronically**

### Custom Programs and Reasons to Recognize

You determine the value of the behavior being recognized so you determine the program name, criteria, and point amount being rewarded. You are billed only for the activated points.

### Custom Award Items

PointFolio<sup>®</sup> Plus users automatically get their logo and personalization on a number of the catalog award choices.

### Program Promotion

Have a need to communicate the desired behaviors? Give your custom programs visibility with communication materials that foster a culture of recognition.
